number of cars: 1 Tandem
capacity: 550 pph
base area: 50 x 5 m (164 x 16,4 ft.)

Special Features

world's highest inversion
2 inversions
spectacular design
very compact layout
extendable to a total track length
of more than 1000 m (3280 ft.)

Heart Roll

Ride Description

The Humpty Bump is followed instantly by a 360° heart roll and a plummeting vertical drop at 105 km/h (65mph). After swinging spectacularly to and fro, again at impressive heights, the X-Car returns to the station – or, depending on requirements and capacity, launches itself over the summit once more and embarks on another breathtaking ride.

Humpty Bump Lift

Before the Drop
